1. Claims 1-3 are allowed since the prior art fails to teach or suggest producing the particularly claimed sensitizers by sequentially emulsifying, melting, crystallizing and cooling.

2. Claims 4-10 are again rejected under 35 U.S.C. 103(a) as being unpatentable over applicants' statement of the prior art for the reasons of record.

The only objective evidence of record (i.e., Table 6) with respect to the sensitizers themselves establishes that they are in no way inferior to sensitizers made by known methods. The portions of the specification referred to in the second full paragraph of page 6 of applicants' specification therefore constitute unsupported allegations of unexpected results.

3. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
